

MEET DASTI: DRUG-SNIFFIN' K-9

Dasti, a 92-pound German Shepherd, was only 18-months old when he met Officer John Wayne Valdez and began serving as a drug-sniffing dog in the K9 unit of Nacogdoches, Texas. Now, at four years old, Dasti is a valued member of the police force and community.

As a hard worker and devoted canine, Dasti spends his days sniffing lockers at local schools for drug paraphernalia, helping to educate students about the dangers of drugs, and working with the local highway patrol. During his time off, Dasti enjoys snacking on rawhide and playing with his basketball.

Though Dasti receives many compliments about his physique, beautiful hair and incredible amount of energy, he is far from vain. Officer Valdez makes sure Dasti maintains these attributes by feeding him Precise Plus Canine Large Breed Adult Formula for every meal. Officer Valdez insists Precise Plus makes Dasti's coat shine and controls excessive shedding.

Precise Pet Products veterinarian, Dr. Lisa Drapela, helped Officer Valdez choose the right formula to regulate Dasti's digestive system—a switch for which Officer Valdez is very thankful. Spending hours in a patrol car with a smelly pup is not exactly a perk of the job.

In Officer Valdez's own words, "Precise is a great food for active dogs. Seeing Dasti speaks for itself. He is so healthy, full of energy and ready to go do what we need to do."
