

EUKANUBA “BEST BRED BY” WINNER CHOOSES PRECISE

GCH Laurado's Dragonfly, or “Ritz” as her owner affectionately calls her, gave the boys a run for their money at the 2010 Eukanuba Dog Show. She won “Best Bred by Exhibitor” in the Great Dane category thanks to her showmanship, movement and beautiful coat.

Ritz was one of the Top 20 Great Danes in the U.S. for a good part of 2010 and is doing a good job beating the boys in 2011 so far. We at Precise agree she’s tops on our list! She chows down on Precise Endurance at every meal to help maintain all of the qualities that set her above the rest.

Ritz’s owner, Katie Edwards, has produced over 20 champions in her 30-year career as a Great Dane breeder and owner of Laurado Kennels. Edwards originally fed her dogs a brand that was considered the standard for Great Danes for many years. Once the brand was sold to a larger company, Edwards decided to try her new litters of puppies on Precise Pet Products.

“Precise keeps the dogs in good show condition with gleaming coats and healthy weights,” said Edwards. “As more and more pet food companies merge, it’s getting tough to trust kibbled dog foods. I make it a point to know where the ingredients come from and that the food my dogs are eating is top quality.”

Today, Edwards uses a range of Precise products to feed her entire kennel. Specifically, she feeds Precise Endurance to her showing dogs, Precise Senior to her retired dogs and Precise Holistic Complete Large Breed Puppy to her puppies. Edwards notes, “Precise Holistic Complete Large Breed Puppy is one of the only dog foods that says ‘puppy’ that I would feed a Great Dane.”

In addition to breeding and showing Great Danes, Edwards is an AKC Great Dane Judge. She enjoys working with 4-H clubs and is a Great Dane Club of America mentor where she educates others on the proper judging of Great Danes.
