

Mike Compton
Vice President of Operations
Texas Farm Products

Mike Compton is the vice president of operations for Texas Farm Products. In this role, he is responsible for the operations, quality assurance and nutritional content of the products that the company produces. A part of Texas Farm Products, Precise Pet Products is an American-based manufacturer and supplier of canine and feline foods made from all-natural ingredients produced from U.S. sources and New Zealand. Using the latest in technology and testing capabilities, Precise Pet Products provides customers with affordable pet foods that are safe and nutritious.

Compton has a strong history with Texas Farm Products, as he began working for the company in 1976 as a part-time high school employee, loading feed onto customer trucks as orders were received. Since then, he has worked as a control room operator in which he was responsible for batching various pet food formulas. In addition, Compton worked in the laboratory and was responsible for testing the incoming ingredients and finished pet food.

After attending college, Compton returned to Texas Farm Products as a laboratory supervisor and has been part of the company ever since, climbing the ladder to become vice president of operations in 2005.

Compton currently serves on the regulatory affairs committee of the Pet Food Institute (PFI) and the nutrition council of the American Feed Industry Association (AFIA). He has served as the chairman of the AFIA nutrition council specialty feed committee.

Compton received his Bachelor of Science in Agriculture and Master of Science at the Stephen F. Austin State University in Nacogdoches.
